"THE SOULS OF THE WISE ARE NOW SEEKING CONTEMPLATION IN THEIR SPIRITUAL PREPARATION FOR 2012"

January 2008.

Dear Friends

Belated Happy New Year to you and all your loved ones.

Recently, I received an email from a wonderful friend and Light Worker, Kim Thomas, who shared something very profound, that truly resonated with my soul. She said, *"While I was in Israel God said spiritual people are five years behind and have a lot of catching up to do. People do not like to be challenged yet through challenge people grow beyond their comprehension. If people do not rise to the challenge they stunt their own growth. We also have five years left to get these ecological self sustainable villages built."*

Rising to any challenge demands tenacity and as with all New Year Resolutions, we start off really well but by Paddy's Day, the 'spirit is willing but the ould flesh is weak.' As Light Workers, we are indeed been challenged daily to make time to seek stillness and solace in the arms of our **Heavenly Father Mother God/Source/THE I AM PRESENCE**. Yet, because we live in a world that causes many distractions that often alienates us from the bliss of silence that we end up compromising our soul's nourishment thus effectively causing a slippery slope to self-abandonment from spiritual practices.

There are many who hear the personal call from the Ascended Masters, Mother Mary, Gaia and the Angelic Realms to make time and be still in the Oneness of the Divine but are far too busy to spend precious seconds nurturing their very soul. As with the body, if we starve it of nutrients and water, then we face imminent death. The Native American Indians found the elixir of life by dividing their allotted time to supporting the needs of their mind-body and more importantly, their spirit. They never differentiated between them but respected all three rooms as sacred vessels for their survival. As Light Workers, we do well to learn from them and prepare today for that time, **2012**.

As I have said so many times to our students and therapists during our monthly retreat days here in the South Lakes, the problem today is that many don't want to do the spiritual workout as it demands effort. What they look for is an easy option or another who will rubber-stamp their issues with love and light. Why spend a fortune seeking fortunetellers to say what you already know! If we make time to seek God in stillness and are willing to ask for spiritual guidance and words of affirmation, then we can expect to hear **TRUTH- DIVINE TRUTH**. No wonder there has been an incredible increase of 'False Prophets' leading many astray and who end up totally disillusioned and adrift without spiritual support to guide them safely back to their inner divine core.

For many centuries, God has spoken to our hearts and sent us 'wise ones' like Moses, Jesus, Merlin, Saint Germainicus, Lord Kutumi, Martin Luther King, Gandhi, Mother Theresa, Archbishop Tutu, Francis of Assisi, Theresa of Avila, Hildegard Von Bingen and many more besides to speak to our hearts. The message has always been the same and yet, many still cannot hear for whatever reason known only too them. As Jesus said, *'If they have ears to hear, then they will hear.'* So, today, the message from God to Kim when she recently visited Israel still holds a simple message for all Light Workers to rise up and be counted. There is no excuse for those of us who have been initiated by the

Divine to speak our truth and empower brothers and sisters embrace their divine truth. Many years ago, as a young inexperienced novice monk, I was instructed by older yet wiser monk to reflect on the following in prayer. " ***Desolate is the whole world laid desolate, because no man stops to think in his heart.***"

Yes, it takes a certain amount of 'real courage' to be oneself and not allow others to infiltrate our inner sanctum causing disquiet. Whilst you may sense that here I am been unkind, or even unreasonable, but I have adopted a more simpler approach to life and taken a back seat by making time to reflect in longer periods of silence and prayer thus preparing myself for what is fast approaching, I have to be frank by sharing with you that I have become 'utterly selfish' for the right reasons and now adopting more 'Me Time' for a change. This also demands that I be more selective with my time management and seek out the wise and not the foolish or those who prefer to wallow in their victim hood. Spiritual selfishness is essential if we are to survive as co creators of Source and learning to say NO to the many demands that are unfairly put upon us is equally important as prayer.

2008, is certainly going to be an exciting year for all of us in service to Source. Already, predictions made sometime ago are been fulfilled and the Indigo and Crystal Children are among us paving the way for us in our quest for the influx of 5th and 6th dimensional energy. Early last year, I was guided by Jesus to forsake travelling and delivering workshops away from home and wait! In the Autumn, I was been made aware that I was to focus less on Angel Workshops and more on using the gifts and skills that I was given many years ago as a nursing monk. My work is changing and all I can do is to honour what I am told to do by Lord Maitrea and Sananda Jesus. In my heart I sense that in light of the need to support clients, therapists and those who are spiritually impoverished or who have been affected by spiritual depression, to now concentrate on meeting their needs here at Chapel Gap in Storth through the residential therapies as well as deliver the specialist courses in Spirituality for Light Workers. Please see the list of the 3 new courses now available online or by correspondence modules. Their essence is more about empowering the light worker sense the true meaning of '**soul kissing**.' Or allowing God touch our soul/ our heart through Divine love. So, please watch this space.....

Establishing the ***Tau Tree of Life Healing Support Group for Light Workers in 2007*** was all part of the Divine plan as so often we loose ourselves in ministering to others. Our monthly support groups are just that! Support, fellowship and laughter are all interwoven to create a spiritual tapestry of Love and Light for brothers and sisters who are searching for clarity as well as acceptance. As Jesus led by His example, when the going got too much for Him, he sought solace in the desert, miles away from people. If you would like to join us on our next spiritual retreat and the Yoga holistic holiday to the Red Sea 1st week in May'08, then please do let me know. Or, if you would like to join us here in beautiful Storth, South Lakes, then see dates for our monthly retreat days overleaf.

The Tau Tree of Life Healing Community are pleased to welcome the following light workers as ***life Members***: Elizabeth Grandee, Patricia Furst, Margaret Holt, Pamela Hook, Nerys Hawkins, Jackie Richardson and Joan Reynolds. (***Annual Membership***): Peter Christian and Catherine Foulkes. Joining the Tau Family forms a spiritual web across the world sending out a positive intent from our daily prayers seeking peace for all mankind, especially in the Holy places like Bethlehem where there is still strife between the three major religious groups. Regardless of our faith, beliefs or culture, as spiritual brothers and sisters, when another member of the global village is hurting, then, we too, are also hurting at soul level and the need to repair differences are paramount for the survival of all. Some perceive our group as some religious fanatics! What we really are is something more to do about been ordinary yet, doing ordinary things extraordinarily well for God. I guess we take our mandate seriously and despite the accusations unfairly levelled at us, we know that Lord Kutumi and the Realms are somehow using our human frailties to touch lives, regardless of the scepticism and indifference.

The Tau Monthly Retreat Healing Support Group days mainly consist of a talk and meditation led by Sean in the morning followed by a Shared Lunch. The afternoon focuses more on delegates exchanging Love and Light through sharing their spiritual gifts as well as incorporating their healing energies using Essenic Energy Medicine/Therapeutic Touch, etc. with each other to 'self heal.'

Many delegates who have joined us for these days have benefited from the warmth and love that touched their lives enabling them to face their worst fears and move on. If we can be of any service in supporting you or your friends, then please do spread the word, as Tau is not exclusive but all-inclusive for anyone in need. **Who cares for the carer?**
