"THE PLACE WHERE GOD CALLS YOU TO IS THE PLACE WHERE YOUR DEEP GLADNESS CAN MEET THE WORLDS DEEP SADNESS".

SUMMER NEWSLETTER 2007.

Dearest Brothers and Sisters

With the numerous emails circulating about the 17th July world meditation earmarked for 11.11am (GMT) this month, what better way to connect with the ancient teachings of the Essenes especially the spiritual connection with Saint John and the Mount Carmel community of Essenes. Despite 2000 years of persecution from the early Church Fathers, including Saint Peter, the original teachings of the Master Jesus as safeguarded by St. John and Mary Magdalene, have indeed survived until the present day. I remind myself of the words of Jesus, 'Blessed are you who have not seen but yet believe. I know in my heart that today more than any other time in history, Light Workers are receiving the same personal invitation to 'Come and See' what God can do for us. All that is expected from us is that we remain determined to walk that stony road despite what life throws at us.

So many light workers loose sight of their many spiritual gifts when they get embroiled in the unfolding dramas of our present world. I have seen this for myself within our own spiritual family when many join and embrace the healing energies of Sananda Jesus only to loose sight of the grace and divine abundance that was given. But, as we are all responsible for our own actions, yet, it is important that teachers involved in training therapists in Holistic Science are reminded not to forget the importance of encouraging spiritual growth and development for their students and members.

Within the academy, we have established the The Tau Tree of Life Healing Community as another tangible expression of engaging with our higher self and listening to our hearts. As light workers, we are now invited to accept the new challenges from Source to work with Mother Earth and help heal ourselves as well as heal the planet Earth. We can achieve this only through establishing vortexes of vibrant healing love whereby negative energy created by mankind is transformed by our passion to remain in service with Jesus and the Holy Father Mother God. We are better placed than most in that we know in our heart of hearts that we are 'a chosen people' and our duty is to be in service wherever we can. For more details about the Tau vision, please read below or visit the website at: www.taucommunity.com

But, after July 17th, what then I ask myself? Each day is a new day and we can still make miracles happen by reaching out to one another in brotherly and sisterly love through our commitment to remain in service to the Divine within each of us. The

words of Jesus still rings a positive note in my heart when He said, ‘ whatever you do for the least of these my brethren, you did for me.’

The vision of the Tau Tree of Life Healing Community is another way of reaching out to others and trying to see the face of God despite the pain and rejection. We know only too painfully that whilst many are invited to join the ‘Army of soul seekers’ there are many who decide it is not for them and end up going their own way, often at their own peril.

In addition to establishing the Tau Tree of Life Healing Community, four of us have recently been involved in the setting up of the Rivers of Gold, providing Holistic Retreats and Holidays for the spiritually minded. Our first ever joint initiative is a spiritual retreat titled ‘Manifesting your Abundance’ working with the energies of Sananda Jesus, Ascended Masters and the Archangel Zadkeil. The 7 days of sheer luxury is an ideal time for all light workers to embrace their mind-body and spirit with some retail holistic therapy. We depart Manchester on Monday 28th January 2008 for 1 week by the Red Sea at the 5 star Hyatt Regency hotel, Taba, Egypt. Rivers of Gold under the leadership of Rob, Angela, Ciaran and myself are now planning many more of these events together with an angel cruise, and a cruise up the Nile. If you or any of your friends would like to join us on this special retreat then please email us at seansacademy@aol.com

Supporting each other as a family of light workers is paramount if we are to remain strong in the face of our daily intake of struggles and disappointments.

The Tau Tree of Life Pastoral Team and its members have a vision that may well interest you and if so, then please come and support us to reach out to the many who are in need of our services.

Mission Statement: Our short-term Aim – is to continue to provide a place of respite and retreat for those who care for others either professionally or voluntarily. Our long-term Aim – will be to create a self supporting ‘eco friendly’ living community that will make a difference on how mankind perceives their responsibilities towards managing energy and waste now affecting planet Earth.

- Ø To provide a place where people of different faiths or none can come to know and understand each other and, in so doing, live as well as work together towards ease in our world.
- Ø To celebrate diversity whilst acknowledging the underlying unity of the human race and universal human need for love and care of their physical, mental and spiritual well being. (as in NSF’s- promoting ourselves as evidence – based health care).
- Ø To provide residential respite for Therapists, Light Workers, Carers, or anyone in need.
- Ø To provide care at home/ accommodation on site for the cared for if necessary to enable Therapists and carers to access our services.

- Ø To care for the physical environment in order to maintain and enhance the heritage of the area, both in the built and natural environment.
- Ø To promote sustainable ways of living in harmony with our environment. To empower Governments to review their policies on sustainability of planet Earth from further abuse by mankind.
- Ø Become a centre of expertise, training and support for equality, diversity, global warming, holistic energy and any other issues having an indirect or direct impact upon the survival of man.
- Ø Short term accommodation for carers in crisis.

To achieve this we have established the Tau Tree of Life Healing Community that will facilitate that vision providing respite, educational facility and a holistic framework of practical support for Therapists, carers and members within the local and national community.

Already, our newly appointed Pastoral Team are negotiating ways of taking the vision forward by carefully studying the best way forward for our survival. A co-operative initiative or that of Ltd. Company is now been carefully scrutinised.

In addition, we aim to develop an effective two-way communication within all interfaith groups through education and training revisiting our shared values as members of society based on truth and mutual respect for culture, diversity, ethnicity, language, sexual orientation, disability and eco friendly initiatives that will safeguard our very survival into the next millennium.

The Tau (TOL) Community aim to develop a network of creative vibrant communities delivering educational and practical support in in the South Lakes and in some of the most challenging and demanding neighbourhoods in the UK and beyond. We aim to deliver an educational holistic service that is hands on, flexible, user-friendly, value for money and reliable.

The Tau (TOL) vision meets the current government's criteria of promoting cohesion and reducing social exclusion. Interfaith work is a government priority and we believe that the Tau (TOL) Community has the basic foundation on which to develop a series of strong projects using our unique spiritual dimension.

This vision is based on the reality of interlinked global diversity, which colours the local environment. People of different cultures, faiths, languages and ethnicities living side by side reflect this spectrum of colours. Different in certain ways, yet bonded together by similarities to make the whole.

Differences of spiritual belief give us beauty like the colours of the rainbow but they can also result in challenges that need to be overcome to help us achieve sustainable and cohesive communities. The vision of Tau (TOL) is to offer a hand of friendship and work within local interfaith communities thus resolving centuries of misunderstanding, religious bigotry, persecution and adopting the principles of Saint Francis whose core values inspired many to embrace a unique pathway inspiring peace and a deep rooted respect for the landscape and eco issues of the day

In conclusion, the members of the **Tau (TOL) Healing Community** are committed to working with all other agencies to empower mankind to work in harmony with Mother Earth to safeguard the planet Earth by managing it's resources of energy and waste more effectively. Our vision is that which has been placed on our hearts to work with Sananda Jesus, The Divine Feminine, Mother Mary and all of the Ascended Masters to reclaim an ancient spiritual way of life that has stood the test of millennia against the deceits and restraints that mankind may have used to deceive the servants of Love and Light.

If you are inspired by what you have read about the vision of the Tau (TOL) Healing Community and feel inspired to be a '**key player for Sananda Jesus and Mother Mary**' then please come and share your gifts and enhance our spiritual development in making our local communities a vibrant vortex for Mother Earth to transform mankind's negative values that have raped the universe of it's energy and God's inherent gift of love to us.

FORTHCOMING EVENTS FOR OUR MEMBERS IN STORTH, SOUTH LAKES 2007.
