1. Graduation of the Chester Group December 2006.

Nerys (North Wales); Nina (Ellesmere Port); Carolyn (Chester); Hilary (Overton on Dee, Wrexham) and Janet(Hyde, Cheshire) all completed their Graduation on Saturday 9th December at Chapel Gap in Storth, Cumbria. Lots of therapists, including our two mentors of the group Bev Pace and Irene Furnival as well as our lovely brother Sean attended.

Personally I have to say it was a very special day for me. I felt truly humbled and chuffed at the same time and I can honestly say I have *never* felt energies more powerful and loving than what I did on that day. I am restored with renewed faith, love and peace and a big thank you to Sean and everyone who was there. It was a magical day for me – Thank you all so much – **lots of love Ninaxxxx**

Nerys says: My faith in the Angels has come back to me at the moment and I feel great humility for the work I will be doing. It will day a few days for it to really sink in.

Hillary says: A beautiful day with beautiful people and a truly deep and spiritual experience.

Janet says: I feel elated, it was very emotional and I felt a strong feeling of belonging and of being home. A great feeling of love – my whole being has always been like this and I've come full circle right back to the start of me.

2. Message from Sean

Dear Fellow Soulmates,

Greetings in the name of Love & Light. On behalf of our spiritual family within our Academy of Light Workers, may I take this opportunity to wish you and yours a Blessed and joyous Christmas on the 25th December and a New Year enriched with many blessings that will empower you receive the untold riches that await each of us in our spiritual pathway.

Since we last were in touch, many exciting events have challenged us to make specific changes in our daily life both as a therapist and as a light worker in service to the Sananda (Jesus) Magdalene energies. The energies now flooding our MBS are certainly shifting old ways of thinking and our working lives are so much more richer for these energies.

In July this year, we received a specific message from Lord Kutumi (St. Francis) that certainly challenged my heart to reflect –pray –and seek guidance from Sananda and the Divine Feminine. An SOS was sent out to our students and therapists to read that message and it was unanimously agreed that we all respond in a proactive way by taking responsibility and working with the Ascended Masters to bring the vision to all Light Workers across the World and reach out in the name of their Love by establishing a Charity that would benefit all Carers and therapists who are seeking a more intimate relationship with the ' I AM PRESENCE'. Already, the students and

therapists of the Academy have formed a Board of Trustees and a working Management Committee to oversee the running of the Charity. The vision is to establish a Respite Care and Training Centre here in the Lakes, and nurture Tau Healing Support Groups in every city and country reaching out to all fellow therapists and Carers who are in need of practical support. The main lifeblood of the Community will be from a group of like-minded souls who wish to live in a spiritual interfaith family sharing everything as one family of soul seekers.

The Tau Community of St. Francis is now up and running trying to raise the profile of the Charity and help generate interest among our brothers and sisters in the UK and abroad to get involved. And come together and support each other as an interfaith family. The core values are to unite all brothers and sisters of all faiths and none to come together and sing the praises of the same God through sharing respect, dignity and love. The ills of the 21st century have mainly been caused by 'religion' and the many factions within that family; have segregated the family of God. I believe that when man decided to abolish the Divine Feminine from their liturgy, the male ego dominated the mind and hearts of God's children leaving them vulnerable, fearful and oppressed. Today, You and I are presented with an enormous challenge to unite the minds and hearts of all God's family by coming together as one family in smaller communities and commissioned to send out Love and Light to the World. If you wish to help us set up a Tau Healing Support Group / Fundraising Group or would like to know more about the Tau Vision, then please visit the new website at: www.taucommunity.com

Moving on from this, I would very much like to share with you something that is dear to my heart and I know it will touch you in a special way too. Recently, I was privileged to meet a 90-year-old lady who has been channelling the Sananda Energies for over 30 years. Beryl, and her late husband have been involved in soul rescue work each Tuesday evening for many years and boy, when she handed me one of the many manuscripts of the teachings channelled from Sananda, I was blown away. The same applied to my spiritual sister June in Motherwell when she received a copy of the same teachings. My heart resonated with the simplicity of the language used by Jesus to convey a simple message about the 'Ascension Process'. I hope to include several of these teachings on our website before Christmas for you to read and allow the healing energies touch your soul and heart with the purest love. I would like to convey our indebtedness to our sister Beryl for entrusting the original Teachings of Sananda to the Academy.

In light of the strong resonance with the simplicity of Sananda's messages to my heart, I have been guided by THE Divine Feminine to incorporate these teachings in all future training programmes benefiting our students and therapists. The overall emphasis of adopting the teachings is for the overall spiritual growth and development of our spiritual family of students, therapists and teachers in service to 'THE I AM PRESENCE'. From 2007, the range of Therapist's courses in 'THERAPEUTIC CHANNELLING' will now reflect the essence and core values of Sananda's message to all light workers who are willing to hear and receive the necessary information about what the future holds for us and how we can activate the Ascension Process and be prepared for the next wave.

From 2002 until November 2006, we have run 2 unique healing events, namely the Angel and Christ Healing Days. These events have changed many lives and have reconnected soul seekers everywhere embrace their divinity and their God. The energy shifts that have inspired our students and therapists seek wholeness and wellness in their search for enlightenment; have necessitated that change in spiritual awareness. We have replaced these days with a totally revised 2 Day (w/end) non-res. 'Healing Course' that is also the Introduction to Therapeutic Channelling Advanced Course for Practitioners. Incorporating positive feedback from our students and teachers, we have taken these evaluations and created a new style of courses that have been tailored made to suit a variety of students whose training needs are paramount by offering the student-therapist better access and flexibility by offering our 'Open Learning Modalities'. The 2-Day (w/end) non-res. Advanced Course, includes 12 weeks of group supervision with a named mentor. The academy has been instructed by Jesus to run a new course titled the Diploma Course by Open Learning with a 4 hour '1 to 1' personal training and demonstration teaching session with me at our friendly training centre here in the South Lakes. This course can be taken as an intensive course over 16 weeks or as a more relaxed course over 6 months by correspondence including all the support as outlined above.

For student therapists wishing to access the certificate in Therapeutic Channelling (working with the Sananda (Jesus) Magdalene, Angelic energies), they have to complete the 2 Day Healing

Course before accessing the 2 Day Advanced Course. The above courses will be delivered at various venues in 2007.

The proposed dates for the 2-Day Healing (Intro-Therapeutic Channelling) Course are: FEBRUARY-Motherwell, 3/4; Newcastle 17/18; Edinburgh 24/25; MARCH- Manchester: 3rd/4th; Ayreshire: 10 & 11th; Sheffield 24/25; APRIL: Derby-15 & 15; Hexham- June 2/3; Chester-9/16; Edinburgh-23/24. JULY- Sunderland 11/12; Newcastle 18/19. SEPTEMBER: Liverpool-1/2.

Spiritual Retreat Holiday to the Red Sea, Taba, Sinai, Egypt 2007

Our Trip to Taba in January '07 is now closed with a party of 26 consisting of Therapists and their friends joining us for a retreat away from the wintry weather to glorious sunshine. We are running a similar trip to the Red Sea at Taba May: 21-28th and NOVEMBER: 19-26 '07. If you would like to join us then please write to me or visit our website for further details.

I would like to leave you with a special message that I was recently given from our sister Elizabeth in Hexham. The same message keeps coming through from Mother Mary to me and I am been guided to share this message with you in the knowledge that you will reconnect with her Motherly love. The message reads: *"Dear children, my coming to you, my children, is God's love. God is sending me to warn you and to show you the right way. Do not shut your eyes before the truth, my children. Your time is a short time. Do not permit delusions to begin to rule over you. The way on which I desire to lead you is the way of peace and love. This is the way which leads to my Son, your God. Give me your hearts that I may put my Son in them and make my apostles of you - apostles of peace and love. Thank you!"* Afterwards, in conclusion, **Our Lady said for us not to forget our shepherds in our prayers."**

Many of our small family of light workers including myself, have been tested to the point of 'what more can we endure'. So many of our brothers and sisters are sensing that we now need to shift any redundant negativism and remain focussed not on our human weaknesses but on the love of 'ALL THAT IS'. We are each been tested in ways that is now challenging us as spiritual light workers to unite more and come together for support and accept whatever is given to sustain us in our faith journey. We are thankful that at least within our small family of light workers, there is ongoing support from all within. But we are also mindful that many light workers are choosing to walk this spiritual pathway alone without any form of support. Our advice would be to ask the realms to guide your heart to seek that support from like-minded souls. Otherwise we run the gauntlet of been emotionally and physically attacked resulting in our falling by the wayside. The vision of Lord Kutumi is not just for Sean and the members of Tau and the Academy but for you too. We are each responsible for taking back our power and for our divine light to sparkle and touch lives, we first have a duty to care for our own needs first. I believe that we have to be spiritually selfish and safeguard what we were given as children of God before we entered our physical body. Many beautiful souls that I regularly meet up with at our healing events are tormented souls feeling that they are so unworthy. There is thought process that is very much caught up in Ego and devoid of any self-love and respect. We know that to nurture such negative thoughts, we end up manifesting them as realities that will separate us from Love and Light. Our time has indeed arrived when we are invited by the Messengers of God to embrace the Divine Feminine and experience balance, harmony and connectedness with our God. We have six years left to get the blueprint activated and there is no time to waste on winging over spilled milk but to rise up and claim our divine inheritance as a child of God by manifesting our Abundance now. Sananda is waiting for us to activate the Christ Star and allow the healing energies transform our lives empowering us transmute and embrace the 'I AM PRESENCE'. This is not just for Mother Mera and Sai Baba but for each one of us who are ready to experience the vibrational healing energies that when initiated by us, will transform not just our spiritual life but will also release powerful energies that will allow the Earth to vibrate with us into 5th Dimensional energy.

My prayer for you this Season of Goodwill to all will be to remember you in my quiet times of daily prayer to invite The Holy Father Mother God to enrich you mind, body and spirit with that same healing energy that is afforded to our students when they graduate as Therapists of the Sananda, Magdalene energies.

Know that you are never out of my thoughts and prayers and may all that is pure, selfless and radiant within guide your heart to reclaim your divinity and dignity as that special child of God to embrace 'all that you truly are'.

Love and Light

Your Brother Essene - Sean x (The Barefoot Angel Man™)

Compassion, Jesus and the moneychangers:

People come to me and they ask, "What is right and what is wrong?" I say, "Awareness is right; unawareness is wrong." I don't label actions as wrong and right. I don't say violence is wrong. Sometimes violence can be right. I don't say love is right. Sometimes love can be wrong. Love can be for a wrong person, love can be for a wrong purpose. Somebody loves his country. Now, this is wrong because nationalism is a curse. Somebody loves his religion. He can kill, he can murder, he can burn others' temples. Neither is love always right nor is anger always wrong.

Then what is right and what is wrong? To me, awareness is right. If you are angry with full awareness, even anger is right. And if you are loving with unawareness, even love is not right. So let the quality of awareness be there in every act that you do, in every thought that you think, in every dream that you dream. Let the quality of awareness enter into your being more and more. Become suffused with the quality of awareness. Then whatsoever you do is virtue. Then whatsoever you do is good. Then whatsoever you do is a blessing to you and to the world in which you live.

Let me remind you of a situation that happened in Jesus' life. He took a whip and entered into the great temple of Jerusalem.

A whip in the hand of Jesus...? This is what Buddha means when he says, "an unwounded hand can handle poison." Yes, Jesus can handle a whip, no problem; the whip cannot overpower him. He remains alert, his consciousness is such.

The great temple of Jerusalem had become a place of robbers. There were moneychangers inside the temple and they were exploiting the whole country. Jesus alone entered the temple and upturned their boards--the boards of the moneychangers--threw their money around and created such turmoil that the moneychangers escaped outside the temple. They were many and Jesus was alone, but he was in such a fury, in such a fire! Now, this has been a problem for the Christians: how to explain it?--because their whole effort is to prove that Jesus is a dove, a symbol of peace. How can he take a whip in his hands? How can he be so angry, so enraged, that he upturned the boards of the moneychangers and threw them outside the temple? And he must have been afire; otherwise, he was alone--he could have been caught hold of. His energy must have been in a storm; they could not face him. The priests and the business people all escaped outside shouting, "This man has gone mad!"

Christians avoid this story. There is no need to avoid it if you understand: Jesus is so innocent! He is not angry; it is his compassion. He is not violent, he is not destructive; it is his love. The whip in his hand is the whip in the hands of love, compassion.

A man of awareness acts out of his awareness, hence there is no repentance; his action is total. And one of the beauties of the total action is that it does not create karma; it does not create anything; it doesn't leave any trace on you. It is like writing on water: you have not even finished... it

is gone. It is not even writing in sand, because that may remain for a few hours if the wind does not come--it is writing on water.

If you can be totally alert, then there is no problem. You can handle poison; then the poison will function as a medicine. In the hands of the wise, poison becomes medicine; in the hands of the fools, even medicine, even nectar, is bound to become poison. If you function out of innocence--not out of knowledgeability but out of childlike innocence--then you can never come to any harm, because it leaves no trace. You remain free of your actions. You live totally and yet no action burdens you.

4. Universal Laws Exposed: What They Are, Why They Are There

Dearest Friends, this is by Far, the clearest message I have seen in print, which co-relates and resonates with all the Manifesting and Miracle Working Courses, Studies and Practices. This is worth printing out and working into your daily lives.

There are some two very simple questions, which, once you get their answers, can change your life dramatically for the better. This is so because these two questions relate to absolutely everything that you experience and create in your life.

Everything in this universe runs under universal laws that never err even once. To be in the flow - to live in harmony with these laws - leads you to being all-round prosperous. Such harmony results in effortless well-being and prosperity, simply because you would be riding the currents that build and maintain all creation. But now the two questions:

1. What are universal laws? (Hint: They are like glue.)
2. Why are there any universal laws? (The answer is more profound than you think it is!)

Let us now look at the answer to both of these questions. Once you have the answer, you will begin to see how dramatically your life can be empowered by your new insight. To begin to understand it all, one must consider, briefly, why the universe exists in the first place. The reason behind the creation of creation can be summarized as follows: In the absence of that which is not, That Which Is is not. In other words, the Original Source that some people refer to as God was all that there was; there was nothing else. Now that presented a problem.

This Infinite Being knew itself to be all powerful and infinite, but without something to compare itself against, so to speak, there was no way of experiencing that infinity and power. It live in a realm of absolute, where comparison, and therefore experience, is impossible, for you need something to experience against for experience to occur. So It possessed Knowing, but needed Experience to complete Being.

The solution was therefore to individuate itself into seemingly separate life forms so that each of these life forms could experience itself in relation to the others. Hence the world of relativity and experience was born out of that desire to Know Itself. When people say 'God is everywhere', that statement has more literal meaning than they imagine. Literally, everything is an extension of that Original Force, an expression of an aspect of It All. It creates by extending itself, ensuring that all

creation is in the image and likeness of itself. And this is where the universal laws come in. Now you see that the primary purpose of creation was for Life to experience itself, for you to experience yourself. If you watch the cycle of creation closely, you will notice that it follows this birth-life-death cycle: From the unified non-physical, to the individuated non-physical, to the individuated physical, to the individuated non-physical, to the unified non-physical. Through this process, a Being comes to know Itself by materializing knowingness (thought), then experiencing that thought and its effect, then testing, choosing and converting that knowing from experience into being. For example, if you have never experienced happiness and I told you that being happy feels great, you would know in your mind what I mean, conceptually, but you wouldn't really complete that knowledge without first experiencing happiness and becoming happy.

The Creator had to ensure that this cycle completes itself automatically and serves each purpose, without ever making a mistake. In other words, the laws were built to (1) glue the system together through all those transitions and (2) ensure that the knowing-experiencing-being system of evolution, growth and learning works perfectly with predictable results so that all Its Children of all forms may get to grow and Know Themselves as extensions of the Original without fail, no matter how long it took, and to do so within a system of free will. To put it in another way, a universal law is a bond that connects all experience so as to achieve total knowing. It was a big project, but it worked! Now let us look at some of these laws and see specifically how they apply.

Before we start, it is important to know that these laws do not punish you for breaking them; they cannot be broken. Suffering simply comes up when you try to ride against them. It is amazing how much time and effort can be saved by riding along with them. You literally collapse time when you are in the flow.

Law of Gratitude

You have heard it many times that an attitude of gratitude has the power to get you realizing your dreams at record speed. Why? Because gratitude completes the cycle of knowing. Remember, you cannot know what is without knowing what is not. What you like and what you hate are two ends of the same thing. For example, if you like being with your spouse and hate being separated from them, realize that you are working within the same essence, which is your spouse. It is because of the moments of absence that you appreciate and recognize the moments of presence. When you are grateful for both what you like and what you don't like, you complete the Knowingness and you are released from having to experience what you don't like. This cannot be explained logically, but some very significant shifts occur in your mind and soul (and you can feel this releasing shift) whenever you are genuinely grateful for all things, even the ones you don't like. Gratitude will speed you through your growth and success more than any amount of hard work ever can. Gratitude completes the lesson, and as a statement of completion rings that tone of success, pulling to you the end result desired. Another way to put it is that you cannot leave a situation permanently unless you appreciate the gifts it brings you, and all situations bring a gift, no matter how terrible the situation may appear to be. This law ensures that you will always complete your knowing and embrace all that is before moving on.

Law of Attraction

This law states that you attract whatever you put your attention to. The point of this law is to establish the creative power of thought. Whatever you put in your conscious or subconscious mind, you attract into your experience. This law is very much tied to the law of cause and effect. It is the law that establishes you as a being made in the image and likeness of the Creator, with a mind that possesses the same creative properties. Before you learn that you indeed have this power, your mind will wonder and raise many thoughts, some of which conflict and attack you. At this level, things such as doubt and preferences exist, for you do not think you are responsible and powerful enough to be the creator of your reality. As you watch your life and begin to see the link between your thoughts and your experiences, you become a deliberate thinker, and you no longer think negative, doubt or even have preferences. Finally, you create purely by extension of your thought without doubt or conflict. This law ensures that one way or another, you will get to that point.

Law of Cause and Effect (karma)

This is easy to see its use. It simply shows you that you are an active part of All That Is, that your will has effect. As you grow, you begin to see the link between your thoughts, words and actions with your reality. This leads to responsibility and increased power and care. This law ensures that

through this process you come to eventually know yourself as a sovereign creator. It is a gentle law that lets you build your own evidence, for whatever you believe you will see as truth, until the day you step aside and notice this link. At this point you become a Deliberate Creator.

Law of Love

Love is the building block of all things. Love is energy. Love is not just some mushy feeling. It is energy, the actual building material of all things. It is an actual substance; in fact it is the only substance that exists, taking on the appearance of many forms. Love is also acceptance. It is acknowledging that All Things Are One. That is acceptance. The law of love ensures that you see this truth. You cannot leave an experience permanently unless you exit with love and acceptance. That is why people tend to keep repeating the same types of experiences until the day they stop hating and fighting it and instead embrace it with love and see what the situation holds for them, and heal it with love. This could be a money, health or relationship issue. It doesn't matter. You cannot leave a situation permanently until you exit it with love. You can't permanently get rid of what you hate; you can only leave it or transform it through love. This law ensures that you recognize the truth of unity and drop the illusions of separation. Do you now clearly see how these laws work and how your life can be so much more effortless and prosperous simply by flowing with the laws? Why resist what you can't break? Just flow with it! Resistance creates time, acceptance creates miracles. Look at all this again and you will see how time and effort are the creations of resistance against these unbreakable laws. For certain, flow with the laws and they will carry you where you wish to go effortlessly. They have to - they can never fail! You were not meant to struggle - struggle is unnatural. I wish you the highest possible achievements. If you wish to know more about all this, see <http://www.imagesofone.com>. Article written by David Cameron

www.taucommunity.com

You will be pleased to know that our website is now officially up and running and I hope and pray that you will benefit from having it as another tool to help our small spiritual family to spread the word. For now, the enquiries and information will be handled by myself that's until we access the funds to support several paid key personnel to manage the charity and help us spearhead our centre.

Helen, who is one of our Therapists, has indeed done a wonderful job in the design of the website and I know that Prayer has been instrumental in the overall presentation and high energies that radiate from the webpages. So enjoy your website.

14. Fund-Raising Support Groups re: Tau Charity.

We are looking for a person who can co-ordinate and organise events for the Tau Charity, please let Sean know if you feel drawn or are interested in doing this. We invite all our therapists and their friends to offer practical help to the Tau Community by establishing a Fund-raising Group in their locality. Remember it can be as small or as big as you like: a coffee morning, a jumble sale, a healing/therapy day, and a run around the block! **Whatever you decide just please let me know so I can include it in the newsletter – thanks Nina xxx**

15. Tau Healing Support Groups

How about setting up some healing groups in your area, not only to help support each other but also send out the message of the energies that we work with – Sananda (Jesus) and Mary Magdalene, let other people experience the wonderful therapy that we are privileged to do. Let people know that we also work with the whole Angelic Realm too – I know that when I was in Ilkley in October and I did tasters of the therapy and people were very interested to know it was a form of angelic healing too. So remember to support each other and invite other people to experience this gorgeous therapy. Details re: setting up a Tau Healing Support Group, please contact Theresa Dent TCCP, our Pastoral Team Coordinator - see below for details

Please remember to support each other and wherever possible, do try to maintain the bonds of Friendship that have been lovingly nurtured since your joining the Academy. We are not an island and only as good and as effective as the love we share with each other. In the words of Jesus (Sananda), "Greater love has no man than to lay down his life for his friends."

Please ensure any news, events, poems, channellings etc, for the Academy Newsletter reach me by February 21st 2007, Thank you.
