

Teachings From the Masters – 6

This is **Sananda** – my greetings to you all. All who read these words are amongst those who will be in the first wave of ascension – the plan that has been waiting for you for so long. Perhaps some of you are now remembering that secret knowledge within you which only needs to be awakened. As you are aware you only have to turn within to discover so much. You have heard the words “ Man know thyself and thou shalt know the Universe”. This phrase has been given to mankind throughout the ages and it is truth. There are already a certain number of you who have this knowledge and who are re-establishing it within your conscious mind. It only takes a little seed to be planted within you and the knowledge will blossom and flourish, and you will be able to pass on that wisdom to others around you. Now is the time of awakening, your soul is ready and able to accept these words. I know that some of you may have doubts – that is only human, but the time will come when we will begin this new plan for mankind and I promise you that all will be well.

It is like a step into the unknown – I know that, and sometimes it may be that you feel it is a faltering step, but no, you have the capability and you have been aware for some time that your purpose here in this incarnation is to evolve spiritually, to be able to raise your consciousness to a new level of awareness, and this is in order to be able to rise into fifth dimension easily. As I said in my last communication it will just take a matter of hours and you know that during that time your physical body will change very slightly. It is difficult for you to accept this but it will be so and all will take place quite easily for you. You may be aware that large numbers of you have dwelt on other planets in past lifetimes. There have been those who have received channellings from these planets in the same way as the one who is now channelling has received communications from two other planets, one of which she incarnated on several lifetimes ago.

Many of you have had lives elsewhere and have knowledge within you from that lifetime which at present you are unaware of, but once you have ascended to the fifth dimension you will then remember all that you have within you from that previous lifetime on another planet. Most of the planets that you have incarnated upon are those who have contacted humanity over the last few decades, such as from Pleiades, from Arcturus – from many planets which have been helping over the millennia like Sirius. There are several planets involved which I have not mentioned, but I know that you recognise these names from books that are available now and most of these planets have been mentioned. It is difficult to say within one communication how these planets are involved with the Earth. I myself incarnated on Venus in the past and others of you have also incarnated there. It seems an unlikely planet to have lived upon, but you know that everything is different upon these other planets. The life forms are different and occasionally those life forms are not living upon the planet but within it, and therefore once cannot assume that life is non – existent there.

So many scientists in the past have worked out the temperature, the climate and wind speed having deciphered this from space probes and presumed that it is completely impossible for beings to live upon these planets, but they have not perceived the fact that life can be in many forms as you know, either liquid or gaseous or other ways that you cannot imagine. I will not go into detail on this but just remember some of the programmes that have been on television and opened your eyes to the fact that humanoids are not the only beings, which inhabit the Universe. In future times it may be that you realise this and eventually you will meet many of these beings from other planets, because they are waiting to help mankind at this transition into the fifth dimension as I have said previously. There have been many books written on what you call science fiction which have been inspired by those who have written them - this inspiration has come to them from beings who have lived or are living on the planets and which have been described by them.

There is much communication between planets, and between them and the Earth, because although it is maybe a new thought, the transport of craft between the various planets is not as you might imagine. They are not using fuel as you know it, but much is achieved through the power of thought and other methods of transporting these vehicles of light between one planet and another. Vast distances can be covered in the twinkling of an eye and mankind has much to learn in this way. The vehicles that he has used are extremely powerful and thought much scientific discovery over the last few decades man has launched into space. But in the future the vehicles will be vastly different from those used at present, because the gravity will not have to be considered once the Earth and humanity have raised into the fifth dimension so many more things will be possible when this occurs. As I have said before the Earth herself is changing and although some of these changes will be quite cataclysmic at times, there will be a new generation of life on Earth.

You and all who follow you on the next two waves of ascension will be quite safe and preserved from any violent action within the Earth's crust. The first two waves will take place within five years. It seems as though that is the likely time – as I have said previously it is difficult to weigh up time as it is on Earth, but the plan is for mankind to be safely ascended by the end of the century and the third wave is the one, which may need help. Many thousands will be passing into spirit not accepting these words and will in time reincarnate on a third dimensional world and learn eventually how to evolve their spirituality, and gradually learn to accept these words and in time return to the Earth. Once the physical structure will be smoothed over very quickly and you will return if you have found that it is necessary to raise onto the higher level while the changes were taking place on the Earth. As I have said you will be capable of existing on both the third and fifth dimensions.

On you return you will discover that new lands have been formed and the changes brought about will be remarkable, as the Earth will have changed in dimension. Therefore the changes will be subtly beautiful and you will find that having discovered your new capability of seeing the Devic kingdom, they too will be delighted that you can join with them in the work ahead to found a

completely new Earth, and to begin a new life of activity within the realms of light which have been brought into your vibratory level. You will see colours, which at present you could not imagine and the Earth will be beautified to a level, which is only accessible in dreams! All will be well. There is much to look forward to in future days. We are taking care of everything for you – for your children and your children's children.

God bless and keep you all.

Sananda.
